Compare your electricity usage with similar households in your area.

How it works:

- Select the household size that represents the number of people in your home.
- Compare the Average daily consumption benchmark to Your household daily consumption.

To find out more about how average household energy usage is calculated and get some energy efficiency tips, visit energymadeeasy.gov.au

This benchmark applies to residential electricity consumption. It is calculated based on figures provided by the Australian Energy Regulator (AER) and is indicative only. Consumption benchmarks exclude some large appliances, such as pool pumps, and generation systems (e.g. PV). For more information or useful energy efficiency tips, visit energymadeeasy.gov.au

**Estimated savings or best plan confirmation shown on the front of your bill are based on your past 12 months usage, or your available usage data (if less than 12 months) and our current in market plans at the time this bill was issued. We update our plans from time to time. If you switch plans, the amount you may save will depend on the plan you choose and the amount of energy you use. Go to energyaustralia.com.au/vic-changes to find out more.

For information on greenhouse gas emissions generated from your electricity consumption please refer to the graph.

We've updated our market retail contract due to recent regulatory changes. Find out more at energyaustralia.com.au/conditions-pricing.
